Who Are Ritelite?

Ritelite Sports Lighting is the specialised sports lighting brand of Ritelite (Systems) Ltd, a UK designer and manufacturer of portable and mobile lighting solutions with over 35 years of engineering, LED lighting and battery technology experience.

Our innovative sports lighting systems help clubs, schools, universities and sports organisations maximise the use of their outdoor facilities throughout the darker autumn and winter evenings by extending training, increasing participation and creating additional training areas without the limitations of permanent floodlighting. From portable training lights to mobile and semi-permanent sports lighting towers, our products are designed to meet the changing needs of modern sport.

Working closely with our customers, we continue to develop high-performance sports floodlights that are efficient, reliable and quick and easy to deploy and use. Every Ritelite sports lighting system features our unique beam-controlled lensing, delivering maximum useful light onto the playing surface while minimising light pollution to the surrounding area.

Designed and manufactured in the UK, and sold globally through our extensive dealer network, Ritelite Sports Lighting products are trusted by organisations worldwide across football, rugby, tennis, netball, athletics, and many other sports, helping maximise the use of sports facilities throughout the year, training more players for longer.

IN-HOUSE DESIGN AND DEVELOPMENT

BRITISH MANUFACTURERS FOR OVER 35 YEARS

EXPERTS IN LED TECHNOLOGY & POWER EFFICIENCY

HIGH QUALITY PRODUCTS & PROCESSES, ISO 9001 & 14001:2015 CERTIFIED

The Ritelite Product DNA

When you purchase a Ritelite lighting product you are buying into Ritelite's specific design philosophy behind every product to provide the highest level of "usable light" to the widest range of work task situations. We manufacture products which are:

BEAM CONTROLLED DESIGN

Designed to give maximum useful light for any application with bespoke beam controlled lensing ensuring glare and light pollution are minimised.

EFFICIENT

Designed to be as efficient and energy saving as possible maximising power resource availability whilst providing ultra bright high powered LED light for training and playing sport on any court or pitch.

FLEXIBLE & VERSATILE

All Ritelite products are flexible and versatile enabling them to be used in multiple applications both indoors and outdoors. Portable and mobile, compact to store and transport.

ZERO EMISSIONS

All products are able to be supplied with zero emission, silent running power solutions either with in-built highly efficient lithium batteries or via the RITE-POWER portable battery generators.

ROBUST & RELIABLE

Waterproof, dust proof and shatter proof. Designed to be robust and reliable for the often harsh environments that they are used in.

BUILT TO LAST

Manufactured using high quality components to maximise product life and continue to perform exceptionally for many years.

Why do Clubs and Organisations need a Ritelite Portable or Mobile Lighting Solution?

Unable to get planning permission or do not have enough budget for permanent lighting

Want to light up different areas of a pitch or multiple pitches or courts at different times so need a flexible solution

Would like compact, lightweight products to transport and store between training sessions

Would like to train more players every week by lighting up more areas whilst keeping training in realistic match conditions

Ritelite's portable and mobile LED lights provide a solution for many clubs and organisations who are struggling to continue training and playing sport during the winter months for a number of different reasons including:

High cost of hiring floodlit pitches in local area – would like to keep training at home pitch / ground

Need a semi permanent installation as don't want to completely pack away lights in some applications

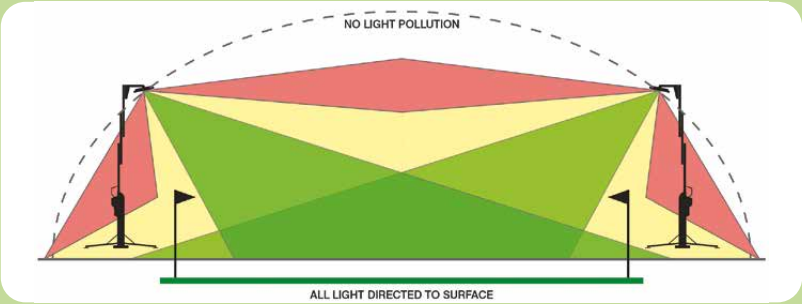
Need low light pollution solution so as not to impact neighbouring houses / areas

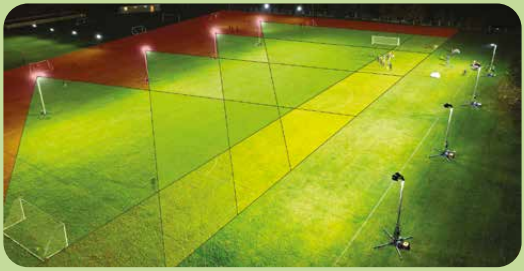
Have permanent lights on the main pitch but want to keep that for matches and train on another areas

Ritelite's LED Sports Lighting Products – Designed for Maximum Light on the Playing Surface

RITELITE BEAM CONTROL

Beam Control ensures all the light is directed towards the required surface offering uniform light for training or playing any sport.





Example of beam control for sports

Beam controlled light, minimises light pollution

Designed for any outdoor sports application

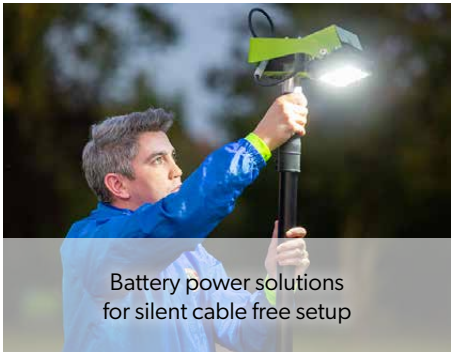
Fully dimmable for optimum control of light output & run time

www.ritelitesports.com

How Ritelite Products are Designed for Sport

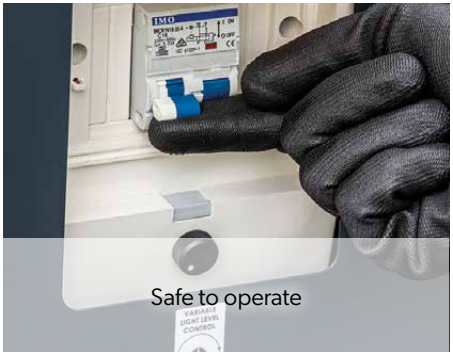
All light directed onto the playing surface with low light pollution to surrounding area

Easy and quick to setup



Battery power solutions for silent cable free setup

Compact to store and transport. Solutions for every size training area including full size pitches.



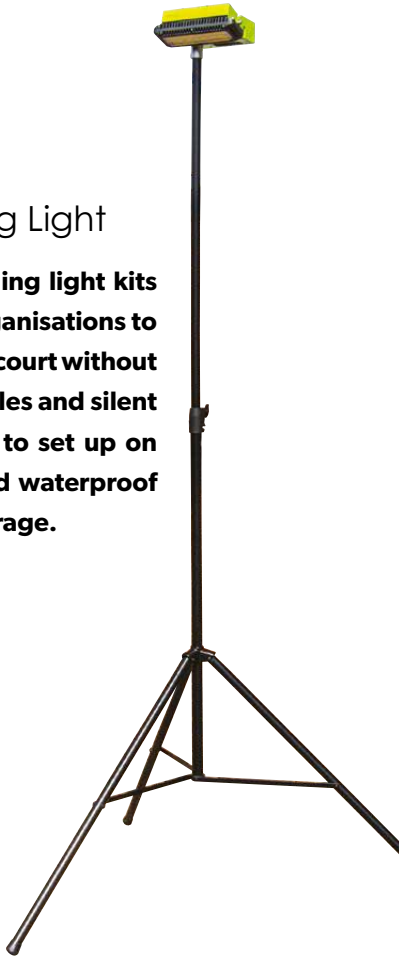
Safe to operate

Optically designed for uniform light coverage across the playing surface

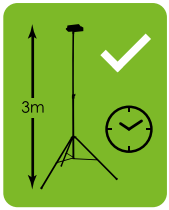
SPORTS-LITE

Portable Rechargeable Sports Training Light

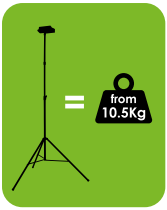
The Sports-LITE portable rechargeable sports training light kits are a fantastic, affordable solution for clubs and organisations to train through the dark winter nights on any pitch or court without requiring planning permission. With no trailing cables and silent battery-powered operation the Sports-LITE is fast to set up on any training area and packs away into the supplied waterproof carry bags for easy transportation and compact storage.



www.ritelitesports.com



Quick setup. No cables, noise or fuel costs. Ready to use in under 1 minute per light

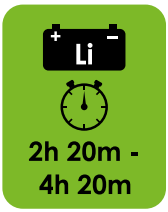


Lightweight and portable. Easy to transport in waterproof bags

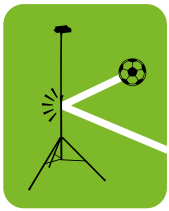
Bright, focused light with low glare. Optimised optics for minimal light pollution

Designed for use in multiple sport applications. Kit options for all training requirements

No planning permission needed. Use anywhere on any court or pitch



Long-lasting lithium battery powered. Up to 4h 20m runtime per charge



Stable and robust. Ideal for any type of training

Safe, silent and zero carbon, no cables or fuel costs

Cut winter training costs. Avoid expensive floodlit venue hire – recharge an 8-light kit for under £1

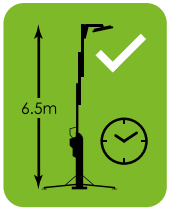
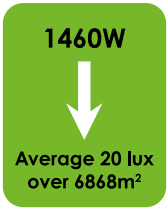
QUAD POD K65

Mobile Sports Lighting Tower

The Quad Pod K65 mobile sports lighting towers are a highly efficient area floodlighting solution for a wide range of sports applications combining optimised illumination and uniformity with minimised light loss, glare and light pollution. Easy to manoeuvre on any terrain and compact to store through a standard sized door the Quad Pod extends to 6.5m in height and can be powered by mains, diesel generators or battery-powered generators.



Rapid, safe deployment. Up to 6.5m height for match play and training.

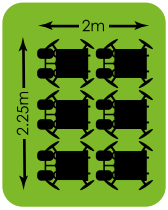


High-power LED sports lighting ideal for large outdoor pitches & courts

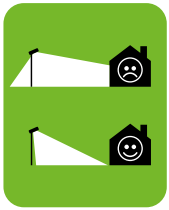
Optimised for sports. Uniform, high-quality illumination with beam control

180º - 360º adjustable light heads to meet all training requirements

Easy to manoeuvre - will fit through standard doors and gateways

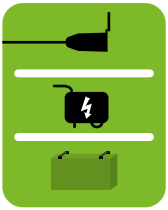


Compact when stowed for easy storage



Approximately 70% lower light pollution than typical lighting tower designs

Designed for use in multiple sports applications



Powered by mains, generator or RITE-POWER battery generators
