= 10.5Kg

Light weight and compact to store

Stable and robust. Ideal for any type of training

Safe, soft descent anti-trap tripod

3m

Mast extends up to 3m height

* 22,000 equivalent lumens when comparing light output to other symmetrical lensed beam pattern products.

www.ritelitesports.com | E-mail: sales@ritelitesports.com

Features & Benefits

Unique lensing optimised for sports playing surfaces to give low light spill (light pollution) and even light coverage

Quick & simple setup by one person in under 1 minute per light

Compact to store and transport. Under 10.5kg per unit. Easy to fit a full set in a car

Lights can be set up anywhere on any surface for sports training

Features & Benefits

Stable to 25mph winds. Optional stability kit allows use in wind up to 35mph

Safe, silent operation. No trip hazards. No noise. No maintenance.

Li

Lithium rechargeable battery pack with up to 4 hours 20 minutes duration. Fast, easy charging

Multiple kit options for all budgets and training requirements

www.ritelitesports.com | E-mail: sales@ritelitesports.com

Kit Options

The Sports-LITE training kits are available in multiples of 2 lights per set. All kits include light heads, 3m tripods, removable lithium battery packs with chargers, and weatherproof carry bags. Common kit sizes are shown below.

4 kit - 4 x Sports-LITE Training Lights

8 kit - 8 x Sports-LITE Training Lights

10 kit - 10 x Sports-LITE Training Lights

16 kit - 16 x Sports-LITE Training Lights

Spares & Accessories

A range of spare parts and accessories are available to maximise the applications your Sports-LITE can be used for and to extend the life of your kits.

TRIPOD

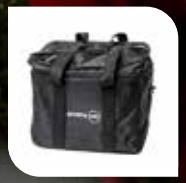
A robust yet lightweight 3 metre tripod for use with the Sports-LITE light heads.

POWER PACK BATTERY (2h 20m)

A rechargeable lithium battery pack with a max 2h 20m duration, complete with in-built battery level indicator

SINGLE BATTERY CHARGER

For charging the Sports-LITE battery packs



LIGHT HEAD BAG

Store up to 2 Sports-LITE heads, batteries and chargers safely in this padded weatherproof storage bag

FENCE ADAPTOR

A 3m height adjustable mast which can be permanently fixed to any fence. Protective padding also available

POWER PACK+ BATTERY (4h 20m)

A rechargeable lithium battery pack with a max 4h 20m duration, complete with in-built battery level indicator

MULTI-BANK BATTERY CHARGERS

4-way, 5-way & 6-way battery chargers for charging multiple Sports-LITE battery packs at once.

TRIPOD BAG

Store up to 2 Sports-LITE tripods safely in this padded weatherproof storage bag

STABILITY KIT

Add to the centre of the tripod to increase stability during windy training sessions

£ Fast payback on initial investment for clubs

The Sports-LITE can be recharged in as little as 4.5 hours (charging a standard 2 hr 20 min PowerPack battery). This offers considerable savings compared to the fuel required to run a generator and with low maintenance costs combined with not having to hire expensive floodlit pitches payback on initial investment can be very fast for clubs and organisations.

Cost to recharge is approximately 6p per Sports-LITE with standard PowerPack batteries

- Example: 8 kit with 2hr 20 min Power Pack batteries = approx £0.50 per recharge from flat
- Example: 8 kit with 4 hr 20 min Power Pack+ batteries = approx £0.90 per recharge from flat

These figures are based upon 24p per KWH electricity cost which is a UK average domestic rate.

Charging Options

Charge your Sports-LITE after every training session to ensure they are ready to use at any time.

Single chargers are supplied as standard in a Sports-LITE kit with one charger per light. 4, 5 or 6-way multibank chargers are also available to charge multiple units from a single plug socket.

BATTERY TYPE	PRODUCT CODE	DURATION	RECHARGE TIME
Power Pack Battery	LSPL/BATT200	2hr 20min	4.5 hours
Power Pack+ Battery	LSPL/BATT370	4hr 20min	8.5 hours

Single battery charger

Multi-bank battery charger

Funding

Equipment Grants & Funding Available for up to 100% of the cost of a Sports-LITE training kit.

There are a number of different funding streams and grants available that can be applied for to purchase Sports-LITE Training Kits.

Our sales team have lots of experience in guiding customers through the grant application process so please do not hesitate to contact us to discuss your lighting requirements for our advice and a bespoke quotation.

Find out more
https://ritelitepportablelighting.co.uk/finance-funding/ or scan the QR code above.

How many lights do I need?

The number of SPORTS-LITE training kits required depends on a number of factors including: the sport being played, the light levels required (LUX), the age and training level of the players and the club or organisation budget.

Experience

The Ritelite customer support team are highly experienced in recommending kit sizes to meet all applications, sports and budgets. The following pages give guidance on the typical recommendations for common sports.

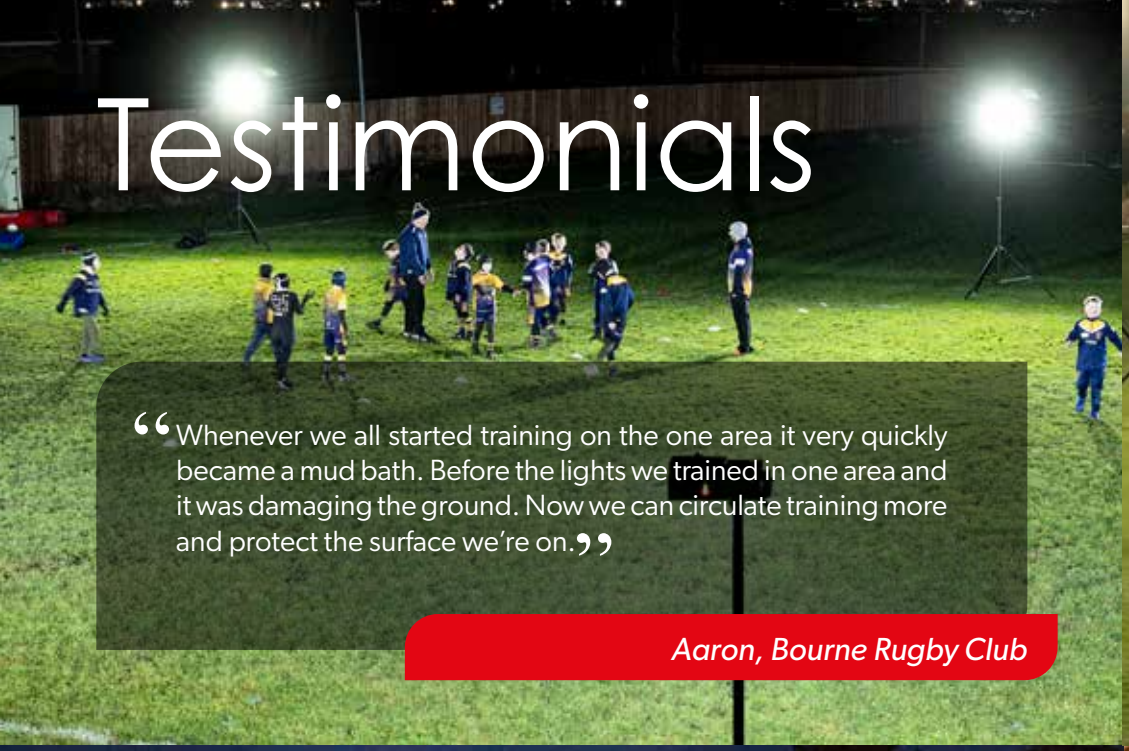
Testimonials

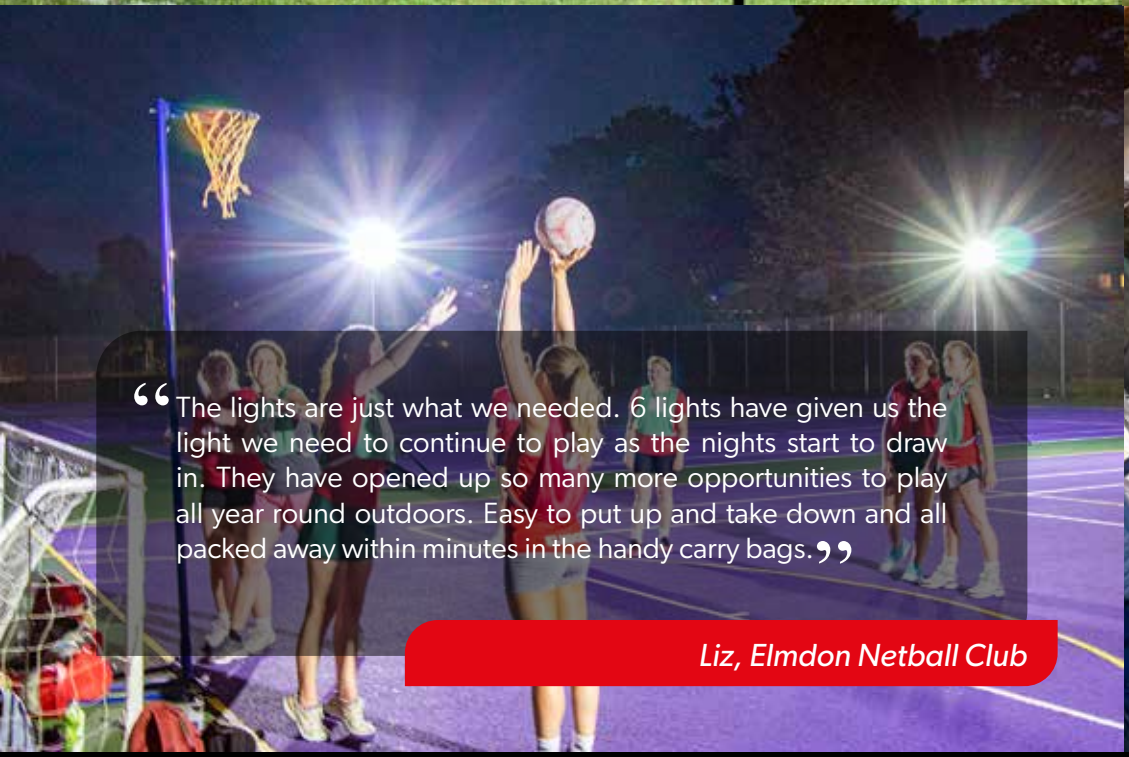


"Whenever we all started training on the one area it very quickly became a mud bath. Before the lights we trained in one area and it was damaging the ground. Now we can circulate training more and protect the surface we're on."

Aaron, Bourne Rugby Club

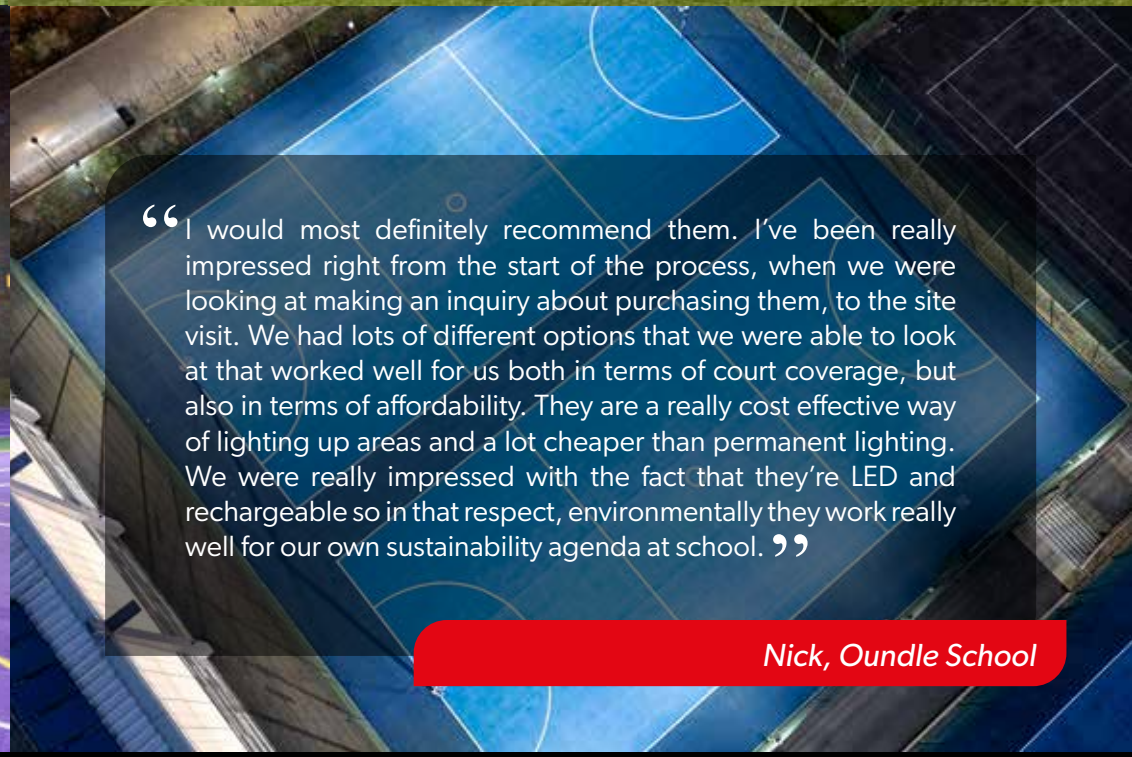
"These portable, rechargeable floodlights will allow us, as a Bowling Club, to play later in the evening and lengthen our season. They will allow us to support other community groups who will benefit from their use."

Richard, Guilsfield Bowling Club



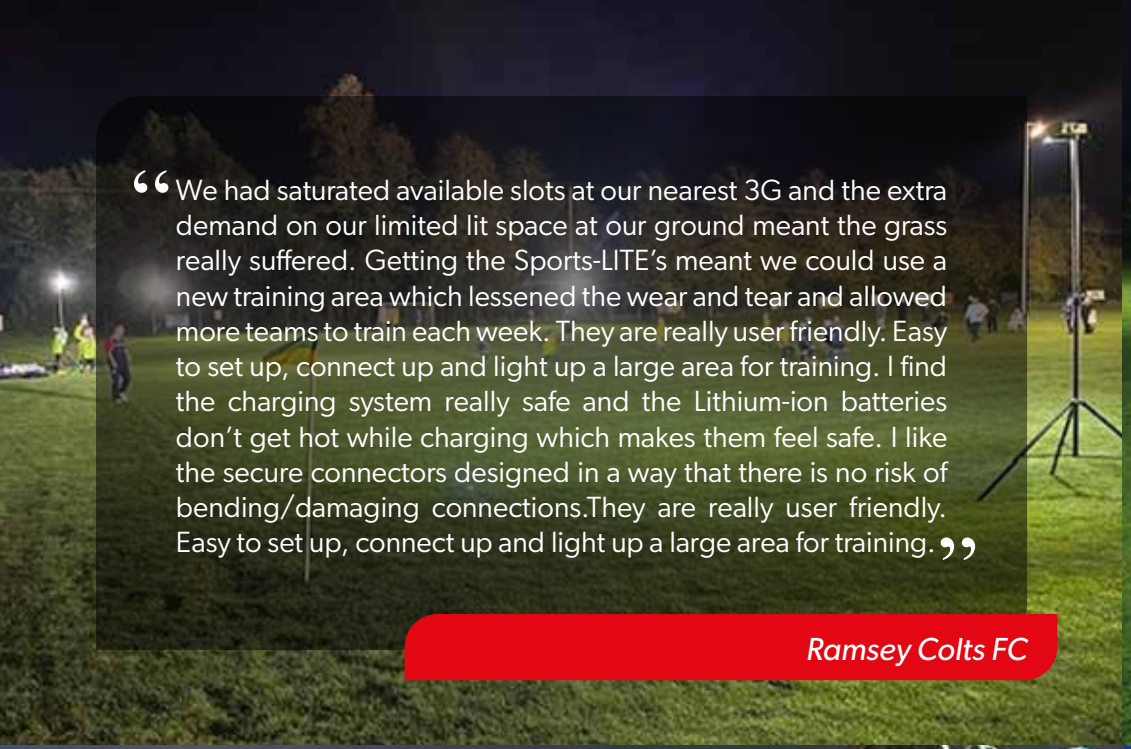
"The lights are just what we needed. 6 lights have given us the light we need to continue to play as the nights start to draw in. They have opened up so many more opportunities to play all year round outdoors. Easy to put up and take down and all packed away within minutes in the handy carry bags."

Liz, Elmdon Netball Club



"I would most definitely recommend them. I've been really impressed right from the start of the process, when we were looking at making an inquiry about purchasing them, to the site visit. We had lots of different options that we were able to look at that worked well for us both in terms of court coverage, but also in terms of affordability. They are a really cost effective way of lighting up areas and a lot cheaper than permanent lighting. We were really impressed with the fact that they're LED and rechargeable so in that respect, environmentally they work really well for our own sustainability agenda at school."

Nick, Oundle School

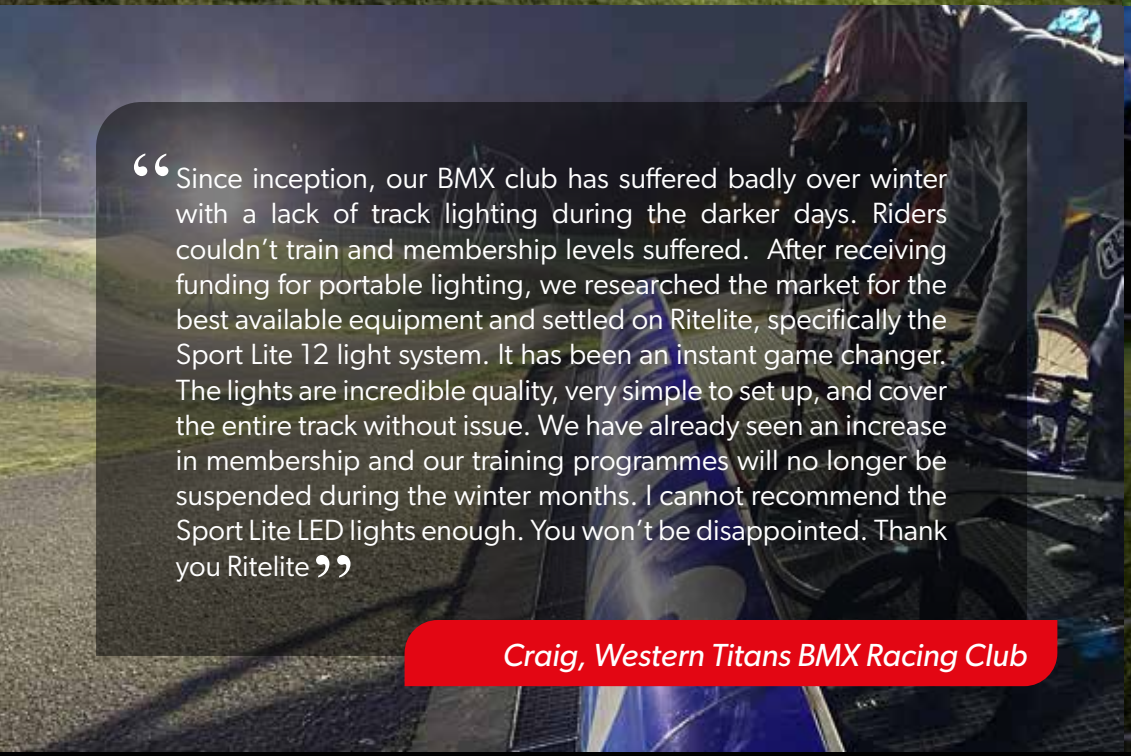


"We had saturated available slots at our nearest 3G and the extra demand on our limited lit space at our ground meant the grass really suffered. Getting the Sports-LITE's meant we could use a new training area which lessened the wear and tear and allowed more teams to train each week. They are really user friendly. Easy to set up, connect up and light up a large area for training. I find the charging system really safe and the Lithium-ion batteries don't get hot while charging which makes them feel safe. I like the secure connectors designed in a way that there is no risk of bending/damaging connections.They are really user friendly. Easy to set up, connect up and light up a large area for training."

Ramsey Colts FC

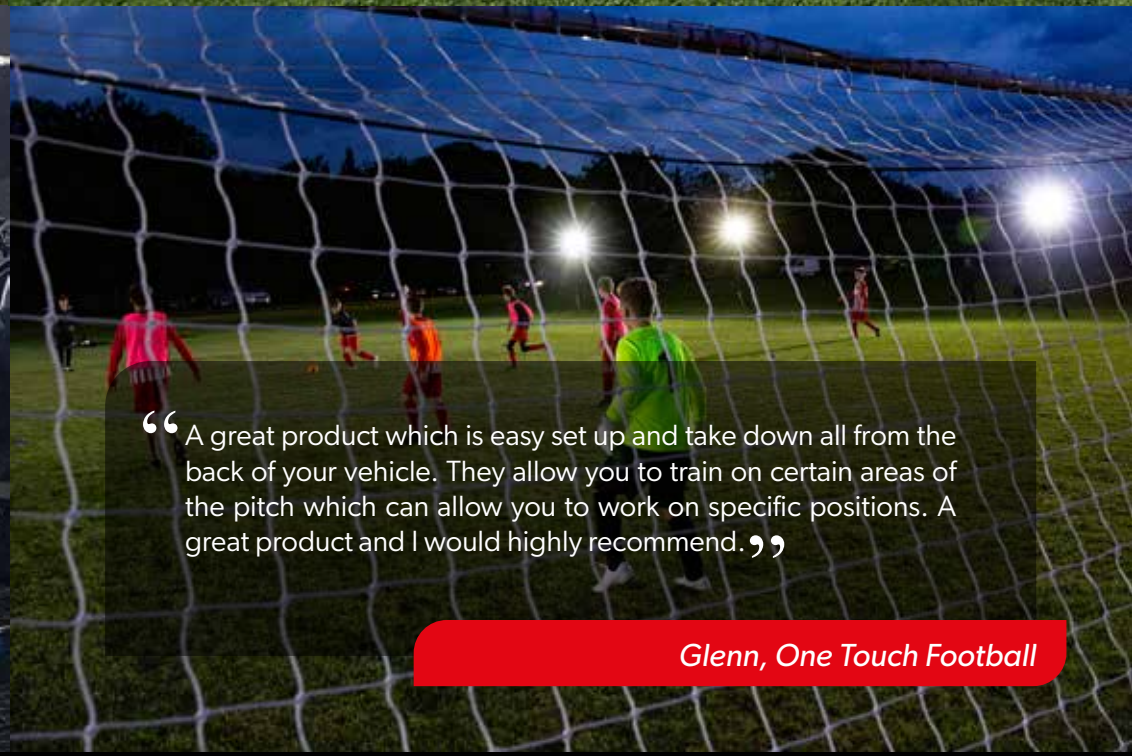
"Having looked at some options the club felt that Ritelite provided the perfect solution with its Sports-LITE – The club applied for grant funding with the Football Foundation and the whole process from start to finish was perfect, Sophie and Brett were amazing and kept us updated on the progress of our order which during 2020 and all the problems with Covid 19 was really appreciated. When the Sports-LITE's arrived, they were soon put to use, the players were really impressed by them and how easy they are to set up and put away. The battery life is exceptional too, over 2 hours of bright light. The introduction of the Sports-LITE has been a major asset to the club, used by every team and the players love them."

Willingham Wolves FC



"Since inception, our BMX club has suffered badly over winter with a lack of track lighting during the darker days. Riders couldn't train and membership levels suffered. After receiving funding for portable lighting, we researched the market for the best available equipment and settled on Ritelite, specifically the Sport Lite 12 light system. It has been an instant game changer. The lights are incredible quality, very simple to set up, and cover the entire track without issue. We have already seen an increase in membership and our training programmes will no longer be suspended during the winter months. I cannot recommend the Sport Lite LED lights enough. You won't be disappointed. Thank you Ritelite"

Craig, Western Titans BMX Racing Club



"A great product which is easy set up and take down all from the back of your vehicle. They allow you to train on certain areas of the pitch which can allow you to work on specific positions. A great product and I would highly recommend."

Glenn, One Touch Football

RITELITE SPORTS LIGHTING

Ritelite Sports Lighting is the specialised sports lighting brand of Ritelite (Systems) Ltd, a UK designer and manufacturer of portable and mobile lighting solutions with over 35 years of engineering, LED lighting and battery technology experience.

Ritelite Products are in use in over 30 countries

Our innovative sports lighting systems help clubs, schools, universities and sports organisations maximise the use of their outdoor facilities throughout the darker autumn and winter evenings by extending training, increasing participation and creating additional training areas without the limitations of permanent floodlighting. From portable training lights to mobile and semi-permanent sports lighting towers, our products are designed to meet the changing needs of modern sport.

Working closely with our customers, we continue to develop high-performance sports floodlights that are efficient, reliable and quick and easy to deploy and use. Every Ritelite sports lighting system features our unique beam-controlled lensing, delivering maximum useful light onto the playing surface while minimising light pollution to the surrounding area.

Designed and manufactured in the UK, and sold globally through our extensive dealer network, Ritelite Sports Lighting products are trusted by organisations worldwide across football, rugby, tennis, netball, athletics, and many other sports, helping maximise the use of sports facilities throughout the year, training more players for longer.
